Summary

Software Engineering student at **Fundação Educacional Severino Sombra: FUSVE**, with expected graduation in **August 2026**. I am a **Full-Stack Web Developer** with experience in **Python, C#, C++, TypeScript, Next.js, Angular, HTML, CSS, PostgreSQL, MySQL, and MongoDB**. Skilled in building automation software, developing APIs and websites. I possess strong soft skills and advanced English proficiency.

Experience

Software Development Intern

Municipal Secretariat of Governance and Sustainability, Saquarema City Hall

March 2025 - Present

Tech Stack: Python, C#, C++, TypeScript, Next.js, Angular, PostgreSQL, MySQL, MongoDB

- Development of automation software to optimize internal processes.
- Creation and maintenance of APIs and websites, contributing to the digitalization of public services.
- Assistance and collaboration with demands from the "Colab" platform.
- Active participation in the "Saquarema 2030" project, aiming to build a sustainable city.

Technology and Education Intern

Municipal Secretariat of Education, Culture, Inclusion, Science and Technology

September 2024 - December 2024

- Execution of volunteer work in schools and educational events.
- Conducted two training sessions for teachers at Colégio Municipal Padre Manuel on using technology in education and strategies for more dynamic and interactive classes.
- Voluntarily participated in events such as Flis and the 3rd Saquarema Pedagogical Exhibition, demonstrating municipal technologies, robotics equipment, and interactive screens, highlighting the importance of technological education in society.

Sales Promoter

Ambev

January 2022 - June 2024

- Developed communication and negotiation skills in the sales environment.
 - Enhanced soft skills within a dynamic commercial context.
 - Demonstrated resilience and focus in transitioning to the software engineering field.
-

Skills
